

The TWO FIFTY Masters Feldberg – Ice, Ice Baby

With massive beats and an audience in good spirits, the freestyle community celebrated the TWO FIFTY Masters Feldberg last Saturday! Shredding, partying, sucking Red Bull popsicles – here’s what else was going on!

At a more than just chilling minus 20 degree centigrade, the riders rocked the Bohny Snowpark Feldberg last Saturday! Our respect goes to the riders, who, despite the Siberian cold, managed to show us some serious freestyle action in the perfectly shaped park. The atmosphere in the Bohny Snowpark Feldberg was anything but frosty, though: the local freestyle fans did their very best to cheer for the riders! After several drinks had frozen to popsicles, the rider warmed themselves up with an aerobic session in the chill area. To the riders’ delight, he freeski lady who should come in first in the ladies’ contest, Nici Scheichl, couldn’t be kept from doing a spontaneous demonstration of fitness moves.

All in all, the number of snowboarders on the Feldberg was a little higher than that of freeskiers which we suspect was caused by the relaxed boss of the local skiing school! The snowboard instructors got the day off, just to be able to take part in the contest! But not just the local heroes came to the Feldberg, also a few Austrians took the long journey to Feldberg and came from as far as Pinzgau just to be part of the TWO FIFTY Masters! Thanks to all the motivated riders and the “best snowboard boss there is”!

The experiences we made in Germany? Our neighbours may not have the highest mountains, but they’ve sure got loads of motivated riders, an eager community and the absolutely massive Bohny Snowpark Feldberg in the Black Forest – ride ON!

Here’s an **overview** of the results:
